MORE ABOUT THE CHEETAHS

Special Hockey Montgomery is an adaptive ice hockey program for children and adults with developmental disabilities. In addition to physical hockey skills, the program emphasizes the development of desirable individual characteristics such as dependability, self-reliance, concentration, willingness to share and personal accountability. The game of hockey is used to develop within each player the characteristics that will help the player to be more successful both inside and outside a hockey environment. Support from this program comes from the community. Middle and High School aged mentors take to the ice each practice to offer one-on-one assistance to Cheetah athletes.
